

LUNDHALSEY[®]

CONTROL ROOM SOLUTIONS

ABOUT US

OUR REPUTATION FOR THE DESIGN AND MANUFACTURE OF EXCEPTIONAL CONTROL ROOM CONSOLES AND SOLUTIONS IS BUILT ON 30 YEARS OF EXPERIENCE, WITH A FOCUS ON CUSTOMER SERVICE AND A RELENTLESS PURSUIT OF INNOVATION AND TECHNICAL EXCELLENCE.

Our well-respected team is passionate about innovation, excellence and customer service – these qualities characterise every project we deliver.

LundHalsey control room consoles and solutions are chosen by the most successful and prestigious organisations in the world to support their demanding missions in the aviation, broadcast, defence, energy, military, process control, satellite, security, teleport and transport industries.

We work with facility and system designers as well as end clients to specify and build innovative and highly functional bespoke control room layouts. We deliver innovative, mission critical solutions to customers all over the world. We also provide custom projects and bespoke solutions for niche industries.

OUR PROCESS

WORLD CLASS DELIVERY

WORLD CLASS INNOVATION, PRODUCT DESIGN AND CUSTOMER SERVICE ARE AT THE FOREFRONT OF THE LUNDHALSEY OFFERING AND WE ARE REALLY PROUD TO DELIVER COMPLETE SOLUTIONS TO NEW AND REPEAT DIRECT CUSTOMERS GLOBALLY.

We also have long-standing associations with respected specialist technology partners in key regions, ensuring that our solutions remain in-step with local market demands

THE IMPORTANCE OF DESIGN

THE BEST DESIGNS BRING TOGETHER SLEEK AESTHETICS AND HIGH FUNCTION, TAKING IN A WIDE RANGE OF OPERATIONAL, TECHNICAL AND SECURITY FACTORS.

With LundHalsey's unique Design My Control Room® and VR capability, you can experience and walk through your design, testing out every aspect to check you are satisfied with the way it will look and operate in practice.

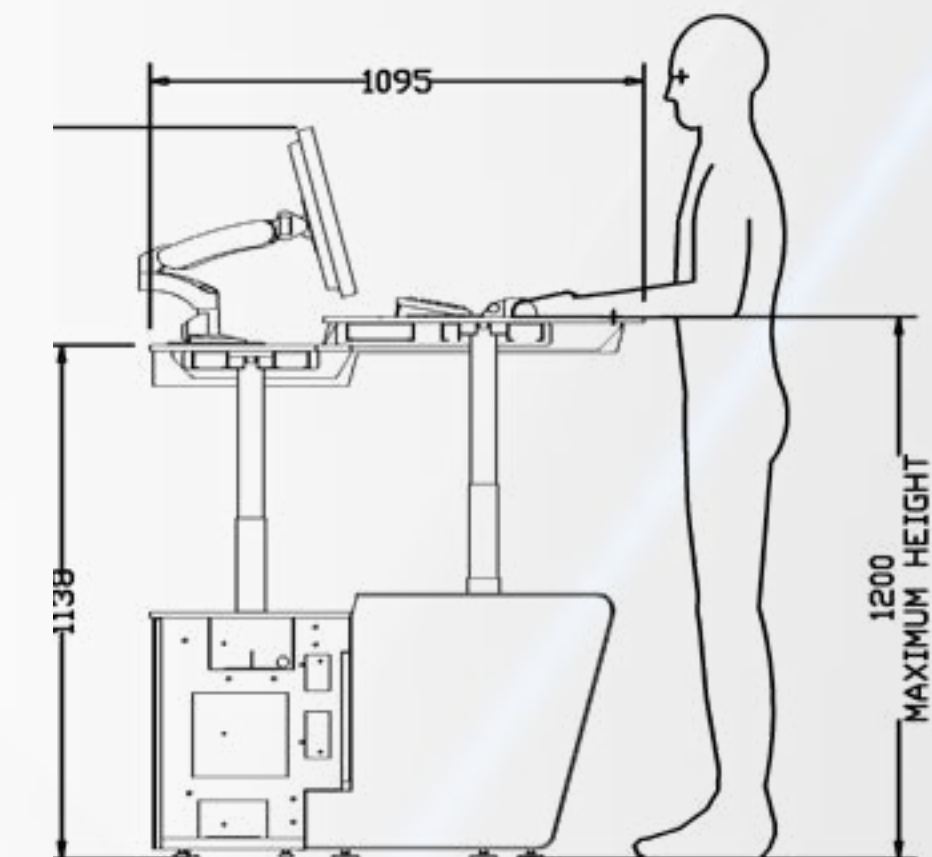

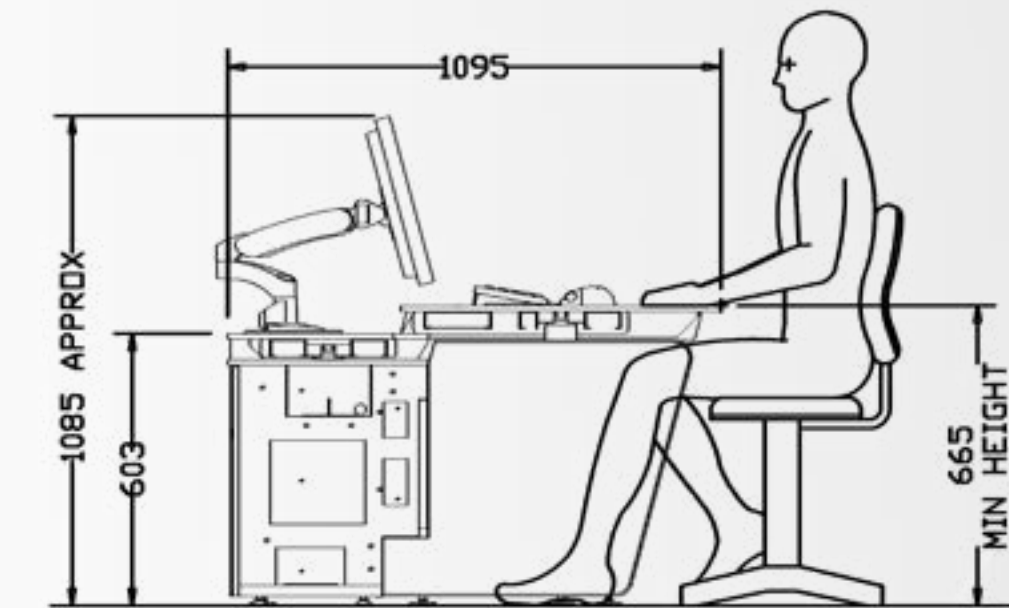

THE IMPORTANCE OF DESIGN

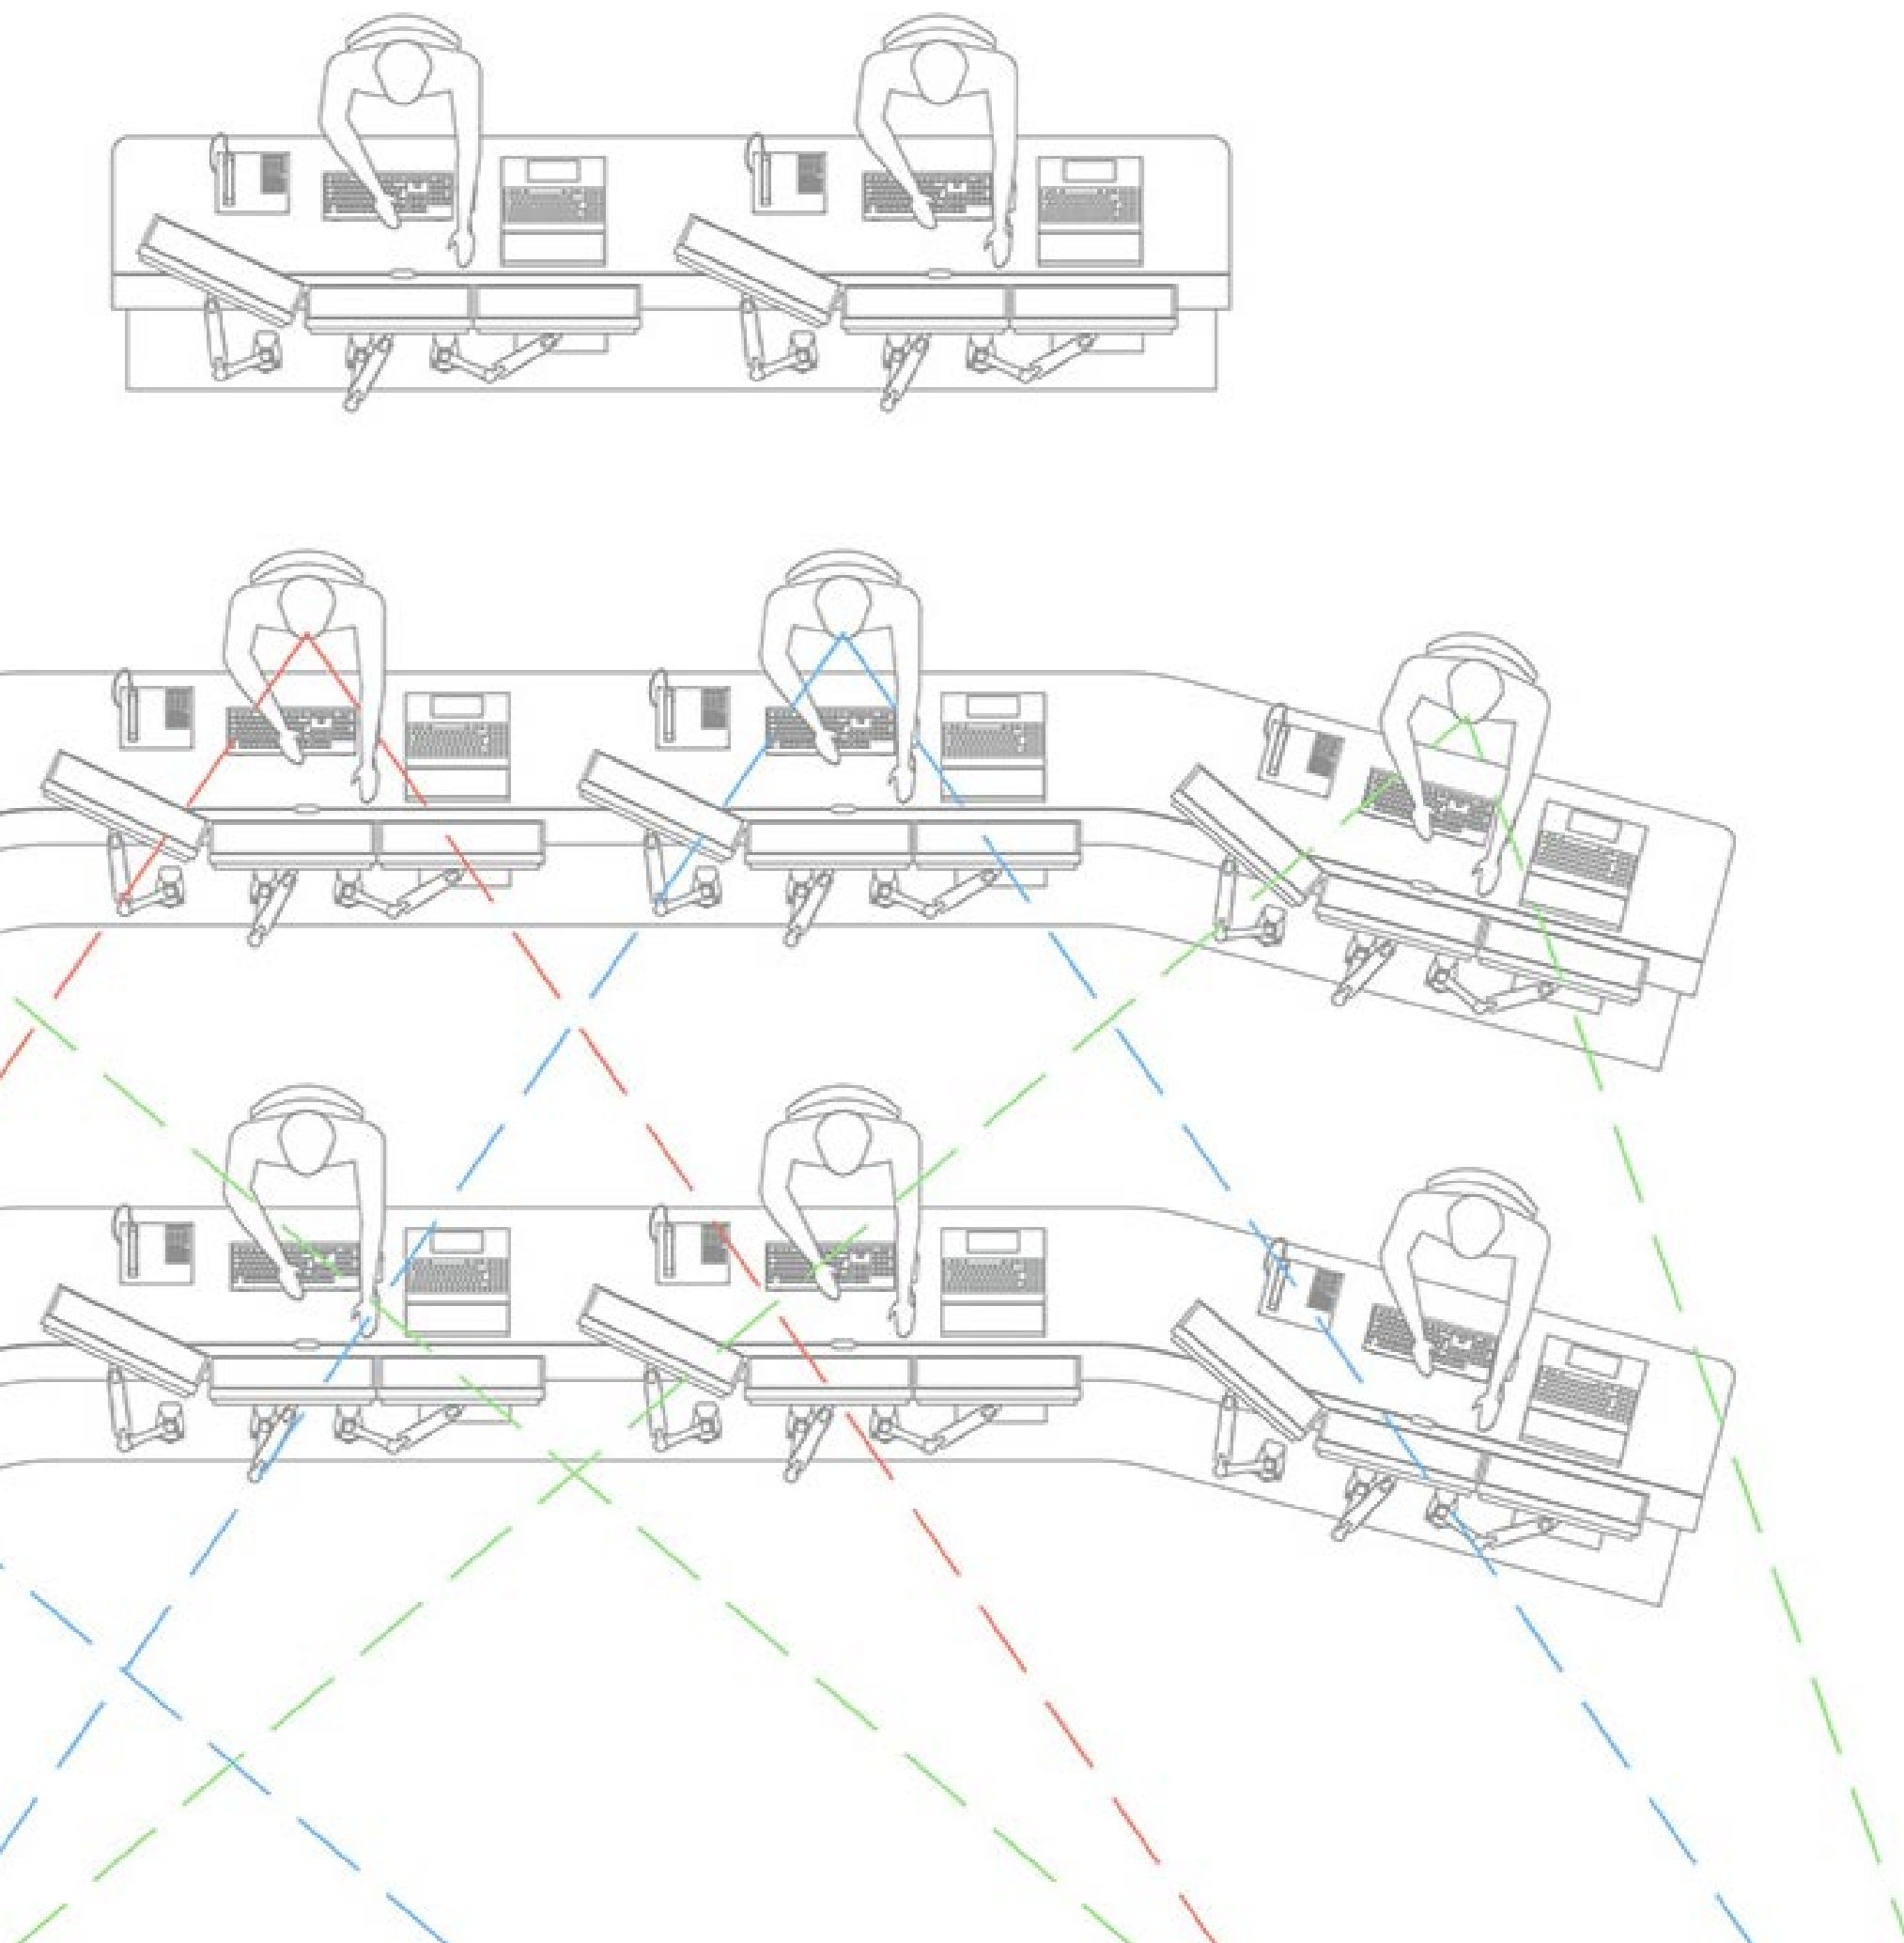

WE CARRY OUT DETAILED CONTROL ROOM WORKING ENVIRONMENT ASSESSMENTS AND REPORTS THAT ADDRESS KEY SPECIALIST AREAS:

- // Lighting
- // Acoustics
- // Ergonomics
- // Operator comfort
- // Sightlines
- // Mechanical design integration
- // Security and staff access management
- // Maintaining situational awareness in every task and situation
- // Raised flooring, cable management and routing
- // Materials, finishes, colour schemes

With LundHalsey's unique Design My Control Room and VR capability, you can experience and walk through your design, testing out every aspect to check you are satisfied with the way it will look and operate in practice.

THE IMPORTANCE OF DESIGN

OUR DESIGN EXPERTS BLEND PRACTICAL EXPERIENCE AND OPERATIONAL RIGOUR TO DELIVER EFFECTIVE WORKING ENVIRONMENTS FOR OPTIMUM PERFORMANCE.

In a contemporary control room, the working environment and console configuration directly affect safety, efficiency and effectiveness. System automation and AI integration have changed the roles of many 24/7 control room operators. They may focus on monitoring for exceptions, so it's essential to provide an optimised working environment for operators to maintain vigilance throughout their shift, meeting industry-recognised performance criteria.

Our design intent methodology embraces Performance Shaping Factors (PSFs) including glare, background noise, operator situational awareness and operator vigilance and alertness.

LUNDHALSEY DESIGN MY CONTROL ROOM®

BUILD, REVIEW AND EXPLORE THE DETAILS OF YOUR BESPOKE CONSOLES, SYSTEMS OR ENTIRE CONTROL ROOM, USING OUR UNIQUE 3D AND VIRTUAL REALITY (VR) CONFIGURATOR, LUNDHALSEY DESIGN MY CONTROL ROOM®.

It's included as part of our market-leading service, to ensure that every system is tailored to perform optimally in its live, on-site environment.

We developed this revolutionary immersive visualisation tool as part of our own rigorous control room design process.

We've adapted it for customers and partners to use easily and quickly, from a laptop, tablet, smartphone or desktop, wherever you are in the world and whether you're an experienced system designer or a functional director.

CUSTOM VIRTUAL REALITY

**WITH OUR CUSTOM VR SERVICE,
YOU CAN SELECT AND CUSTOMISE
YOUR OWN CONSOLES AND
SCREENS THEN ADD THE PRECISE
COMPONENTS AND ACCESSORIES
YOU NEED.**

You can zoom in, walk through and explore from every angle, scrutinising the lifelike detail - from cable management and equipment mounting accessories to screen sightlines, access and spacing.

We can put your bespoke consoles and accessories into a 3D plan of the room and building where they'll be used, so you can take a VR walk around and inspect the facility. We can even add your own branding and graphics.
